SOVIET INVITES U. S. BIOLOGIST TO MEETING

Schnectady, N. Y., Nov. 30 (U.P.)—Dr. Ernest E. Dale, Union college professor of biology, has been invited to exhibit results of his petunia research at the seventh international congress of genetics at Moscow next year.

Dr. Dale's work is concentrated especially on the problem of variations (genetically mutable characters).

He has conducted his research on petunias since his graduate work for a doctor's degree at the University of Michigan. During the summer he worked on petunias at the experimental gardens of the California Institute of Technology, Pasadena.

Dr. Dale's research will have important bearings upon genetic problems in general, and possibly practical application in horticulture and agriculture.

SHRINKING MAN GAINS WEIGHT

Painter Dwindles In Height 10 Inches in 13 Years, But Is Hopeful Now.

Minneapolis, Nov. 30. (AP)—The "shrinking man" of Minneapolis—52-year-old Hans Nelson—cheerfully pointed to 15-pound gain in weight as evidence today that he was making a comeback.

The shrunken painter, victim of the bone disease ostitanidia, dwindled in stature from 5 feet 10 inches to 5 feet and in weight from 190 to 140 in 13 years.

But corrective dieting and injections of calcium at the University of Minnesota hospital have enabled him to throw off that "tired feeling," he said, and to resume normal human pursuits.

Doctors Leave Optimistic.

"I have gained 15 pounds; last summer I drove my car several thousand miles and I can putter around the garage," said Nelson. "Those wonderful doctors have helped me. Maybe I will be able to work again."

University of Minnesota medical authorities were not so sanguine. Nelson is gaining strength but the shrinkage has not been definitely checked, they said he suffered two relapses during his year of treatment and was bed ridden for several months.

Ostianalacia is a softening of bone tissues due to lack of calcium, attending physicians said. It may be due to a tumor of the parathyroid, occasionally the gland becomes over-accelerated so that calcium is passed off too rapidly to be assimilated by the bones.

"WHY DO I FEEL THIS WAY?"
SO much trouble is caused by chronic constipation! Sufferers from headaches, nervousness, lack of pep are often forced to count on pills, salts, laxatives, enemas to relieve constipation in the bowels. Too often people merely use some temporary relief. See for yourself if it doesn't make a world of difference the way you feel after using a purely vegetable laxative.
